We reprint on our first page, by request, an old article on the Chuta plant. It is likely that the worth and uses of this nut are not thoroughly known among our farmers and firther experiments may disclose additional virtues. Let these be made and give the results to the public through the TIMES.

We are in receipt of the Weekly Budget an illustrated literary paper of eight large pages, published in New Orleans at \$2 50 per annum. It contains thrilling stories, the best literary matter, enigmas &c and ranks even with Northern publications of the kind. It deserves the patromage of the South.

Let the meeting to-night be a full and attentive one.

The March number of the Carolina Farmer, a Monthly Magazine published at Wilmington N. C. comes to us with its usual promptness Its table of contents is well filled with missallan cous matter of the highest order, interesting to the general reader and especially so to the practical farmer. Subscription price only 1.50 per year in advance.

Our neighbors are all preparing their gardens for growing Spring and Summer vegetables. The fields and plats of ground about the town show activity and purpose; and the reports we get from the country indicate that the busy season has fairly set i . Let us all rememder that bread and meat constitutes the staff of life, and see to it that-a sufficiency is provided for the next year. Don't raise cotton to buy corn and meat.

It is the duty of every one to do something for his country's good, So be promptly on land to night.

We have received a descriptive circular of a work entitled "Lrrors of the Papacy," by the lamented Bishop E. M. Marvin of the M. E. Church, South. The book is a compilation of a series of lectures delivered in St. Louis during the winter of 1860 and is said to be the best of the Bishop's works, Every Southern Methodist ought to have the work. It is a book of 592 pages, well bound and sold at the extremely low price of two dollars per volume.

We see by the Charleston papers the name of John P. Ott mentioned among the graduates of the Charleston' Medical College. Dr. J. P. Ott is a son of Dr. O. H. Ott of Branch ville, and a young man of more than average talent and promise. He bears with him the second honor of his class, his name appearing first among those who received an honorable mention at the hands of the fact ity. We wish our young friend a long career of success ; and usefulness in whatever community his judgmet may promyt him to locate, the young men of our comunity,

We are reliably informed that the house of Mr. Sam'l Fairy was attempted to be robbed on Thursday last by a colored man, who came in the house with an axe and demanded admittance to the rooms. Miss Baxter gave the alarm and the man immediately made his escape to the swamp.

We call attention to the advertisament of Mr. Jas. Van Tassel, agent in this issue. A free wagon yard is provided for the convenience of his customers and others who may wish to stop with him. His store is supplied with the best of articles in his line and his prices will suit the times. Give him a call at Muller's old stand.

Dr. Wannamaker has recently purchased one of the Matthew's Soda Water apparatus which is claimed to be the best in the world. The offi cial report adopted by the American Institute declares that 'soda water from the above appartus is noted for its purity, pleasant taste and freedom from injurious substances." From this fountain the Dr. will be able to supply soda and Congress water at all times during the summer months

During last week we were invited to visit the rooms of the Y. M. C. Association, and were agreeably surprised to find every thing wearing a home like appearance. Their reception room is cosy and beautifully ornamented with appropriate pictures and mottos, indicating the handy workmanship, and encouragement of ladies. Their reading room is nicely fitted up and turnished with the leading papers and periodicals of the day, Innocent games are provided which serve to give an agreea de variety (a the enjoyment of visitors. Y. M. C. A .-The occasion of the Anniversary of the Young Men's Christian Association of our town, was celebrated on Sunday last by appropriate services. In the morning at 11 o'clock, Rev. S. A. Weber preached a deeply interesting sermon at the Presbyterian Church to a large and attentive audieuce; in the evening bible reading at the Lutheran Church; and at night a Gospel Meeting at the Methodist Church, both conducted by Mr. John H. Elliott, Secretary of Y. M. C. A. at Augusta, Ga. These services being new to our people were well attended and were impressive in the highest degree. Monday evening and night similar services were conducted by Mr. Elliott at the Methodist Church, but the inclement weather prevented a full attendance. The report of the President, Capt. Mortimer Gover, and Secretary F. S. Dibbie, gave an encouraging exhibit of the work of the Association during the last year; and it is to be hoped that these christain young men may receive such encouragemeat from our citizens as will enable them to do still more for the good of the community the ensuing year. The youths of our Town needs some restraining radio ences to be brought to bear upon them, especially during the evening and a night, when temp tations to evil are so numerous. The complete success of this Association with said much to the mornt tone of our community and will prove a powerful aid to the ministry in their

Asthma, Severe Colds settled on the off. These attacks became more and more in trequent, and increased more and more in violence until the spring of 1876, when they became alarming. I had to sit up most of the nights, cond not breathe in any other position, and not in a sitting position with out very painful difficulty. It was attended with a very bad cough. The e-pectorations were of a white frothy character and very tough. I became very weak and feeble. My physician did what he could, but to litpurpose. If he knew what ai ed me b kept it concealed from me. I, however, was satistied that the dread disease of consumption was fast setting in upon my imags !

Providentially I saw the recommendation of the Hon. Alex. Pt. Stephens of the Globe F ower Syrup, and having known him for years, and also of his physical infirmities I determined to make a trial of the Syrup. I handly a bartle bought a bottle and commenced taking it as per directions. I felt a sensation of relief after the first dose (taken at night.) but had directed and at night before retiring. I have not had to get up since. I continued to take it regularly until I took three bettler. The cough gradually subsided, breathing became clear and easy, and for twelve months I have been in perfect health -no cough, no asthmetic affection, and I cheerfully attribute my cure to the use of the Globe Flower Sprup, and would recommend it to all similarly afflicted. My official and professio, al labors are particularly straining to the lungs, but I am perfectly sound and well, and bave no symp toms of any lung disease. I keep some of the Syrup on hand, and wrhaps once a month take a dose of it, which I think

I have been thinking for some time that I would add my testimony to the virtues of the Globe Flower Syrup, and now take oc-casion to do so; and if you can make any use of the above so as to benefit the suffer-ing everywhere, you are at liberty to do so.
